
MISTRO
MISTRO
Service on, Stress gone

PROBLEM STATEMENT

Households often face difficulty in finding skilled and reliable workers for their daily needs. At the same time, many workers struggle with limited job opportunities, relying only on word-of-mouth or local contacts. There is a lack of a trusted, accessible, and transparent platform that connects households directly with independent workers.

IDEA PROPOSAL

MISTRO :

A digital marketplace for household services

WORKERS :

Register, build profiles, gain wider access to jobs.

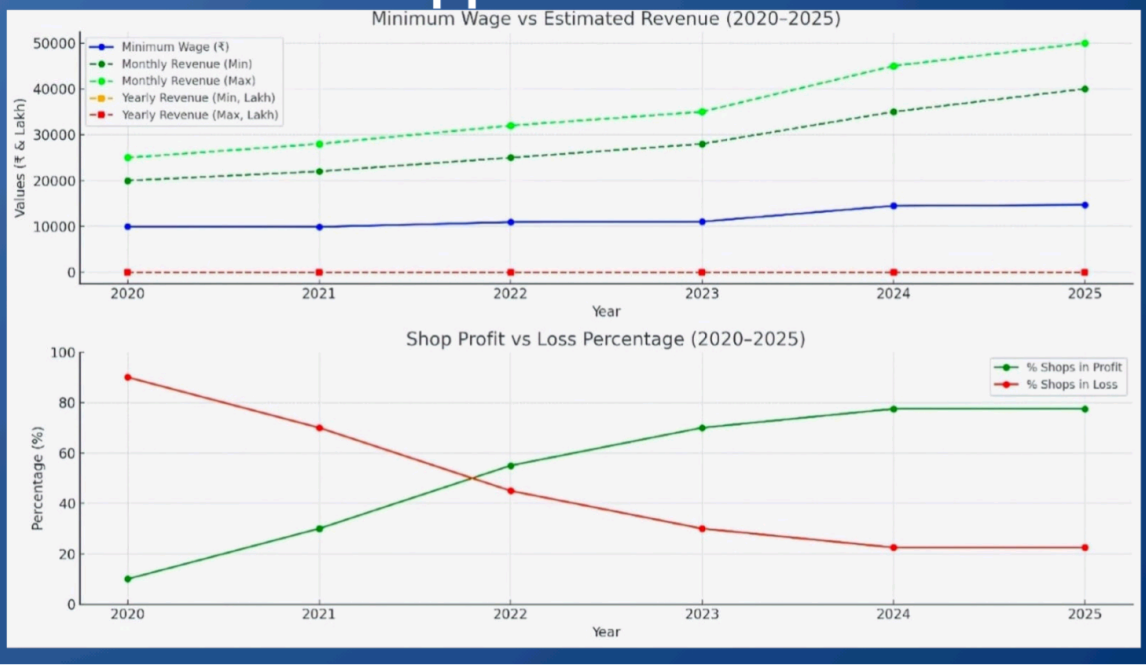

CUSTOMERS :

Search, book, and pay securely within the app

Unlike competitors, Mistro empowers workers instead of employing them

A fair, open, and trusted system for both workers and households.

Challenges Faced by Workers in Getting Regular Job Opportunities

SDG
GOALS
08
Decent Work & Economic Growth
Provide fair access to work opportunities for independent skilled workers.
Empower workers with digital inclusion and economic independence.
11
Sustainable Cities & Communities
Buildsafer, more reliable, and accessible household services in urban and rural areas.
Strengthen local communities by connecting households and skilled
10
Reduced Inequalities (unique angle most will miss)
Create opportunities for marginalized groups (women, part-time workers, retirees
Reduce inequality by giving equal visibility to small, independent workers who usually get overshadowed by big service providers.

CONCLUSION

Mistro is more than just a service app — it is a bridge of trust between households and workers.
It empowers individuals, transforms unorganized labor into recognized professionals, and contributes to building sustainable, inclusive communities.
With Mistro, every worker gains dignity, and every household gains reliability.
